Chocolate -Dipped Strawberries

1/2 pound bittersweet chocolate
16 stemmed strawberries

Put the chocolate in a small metal mixing bowl. Bring a saucepan, of water to a boil and turn off heat. Set the bowl of chocolate on top of sauce pan of hot water and let sit for 5 minutes. Stir, let sit some more, and continue this way until all the chocolate has melted. Take the chocolate out of saucepan. Stir until smooth. Don't let water get into the chocolate or it will get lumpy. When the chocolate feels neither hot nor cold to the back of your finger, line a baking sheet with waxed paper.

Dip the strawberries, one at a time, into the chocolate half way. Put on waxed paper and let cool until the chocolate hardens.
